MONDAY, June 10-P. M.

With a moderate degree of activity at the Stock Beard t is morning, prices were beter, without any special reason appearing on the surface. There was not much business done in shares, the most active being New-York and Illinois Central, but in State stocks the transactions were again large. The market opened at some improvement on Saturday, but fell off as the call proceeded, and closed at a decline; the supply of these bonds from the West continues to be large, and it is truly surprising that the market is so well sustained. There has been some English absorption, and doubtless some buying by the residents of the Border States, who very naturally have a better opinion of these stocks than capitalists at the North have, but these do not seem to afford sufficient resting-place for the millions which have been thrown upon this market during the past three months. At the Second Board the market for these securities was again weak Virginias and Missouris falling off | \$\varphi\$ cent. In the share market the quotations at the morning Board generally had an upward tendency, but the actual improvement was limited. The most buoyant stock was Pacific June 8; Mail, which sold at 59 on Saturday. Under purchases to-day of 250 shares it advanced to 612. Between the Boards the transactions were very unall, but quotations were well sustained. At the Second Board the market was languid, and, un der rumors of more fighting at Baltimore, prices were slightly lower. There was very little disposition to buy, and the bears were endeavoring to put out again the stocks they had been obliged to buy in to meet maturing contracts. The only important change in prices was the further advance of & P cent in Pacific Mail. Salena was i P cent better on rumors of considerable increase in the traffic of the first week of June. N. Y. Central fell off | \$\psi\$ cent, and Rock Island | \$\psi\$ cent. The transactions in Bank stocks were confined to 10 shares American Exchange at 75, and 20 shares Park Bark at 80. The demand for Government securities is fair, and the market is firm. The sixes of 1881 sold at 83; a 83; against 83; on Saturday. The business in cailroad bonds was confined to \$5,000. The holders are very firm for good descriptions, which checks business. In the street, after the regular session, great duliness prevailed, and the market was weak, without quotable change in prices. The closing quotations were: Tennessee 6s, 37 @ 37 1; Virginia 6s, 41 2 @ 42; Missouri 6s, 37 | 237 1, Canton Company, 8 29; Pacific Mail, 62 2 621; N. Y. Central Railroad, 711 272; Erie Railroad, 21½ 221½; Hudson River Railroad, 32 2324; Harlem Railroad, 10 210½; Harlem Railroad Preferred, 234 #234: Reading Railroad, 304 #304; Michigan Central Railroad, 40 #41; Michigan Southern and Northern Indiana Railroad, 104 211; Michigan Southern and Northern Indiana Guaranteed, 23 a 23; Panama Railroad, 105 2106; Illinois Central Railroad, 631 @ 631: Galena and Chicago Railroad, 57 1 @ 57 1; Cleveland and Toledo Railroad, 214 @ 214; Chicago and Rock Island Railroad, 324 #334; Chicago, Bur-lington, and Quiney Railroad, 52 #55; Milwaukee and Mississippi Railroad, 89.

The market for foreign bills is dull, with a good sup-Asking rates are the same as but no important transaction could be made without a soncession. Sterling is nominally 1031-21051 for commercial signatures, and 1051 @1051 for bankers', with sales at both prices. France are 5 40 & 5 35.

Freights-Rates are rather firmer. To Liverpool: 2.000 bbls. Flour at Is. 3d als. 4id.; 30,000 bush. Grain at 6; 27d. for Corn, and 7id. for Wheat; 7,000 bush. Oats at 10d. in ship's bags; 40 hbds. Tobacco at 25s., and 100 do. Tallow at 20s. To London: 10,000 bush. Wheat at 81 @9d.; 1,600 bbls. Flour at 2s. 4id. By foreign vessel: 6,000 bush. Wheat at 104d. in ship's bags; 1,000 bbls. Flour at 2s. 9d., and 50 hhds. To bacco at 40s. To Antwerp: 200 thds. Tobacco at 45s. The transactions in Charters are limited, and we have only to report a Prussian bark, with 24,000 bush. Wheat, to London, at 10id, in bulk.

The business of the Sub-Treasury was: Receipts, \$275,049 93-for Customs, \$29,000; Payments, \$358,-890 25; Balance, \$10,669,768 27.

At the annual meeting of the bondholders and stockholders of the Chicago and North-Western Railway Company, held at Chicago on the 6th inst., the following gentlemen were elected directors for the ensuing

W. B. Ogden, Chicago, Ill.; Geo. Smith, Chicago, Ill.; Wm. A. Booth, New York; Hunry E. Horry, New York; Lowell Hole

brook, New-York; David Bows, New-York; C. S. Seytor, New-York; Aschur Esidwin, New-York; Geo. M. Bartholemew, Hartford, Conn. M. C. Davleg, Fond do Lac, Wis.; P. H. Smith, Appleton, Wis.; J. J. R. Pense, Janesville, Wis.; A. L. Pritchard Watertown, Wis.

At a meeting of the new Board, held upon the same day, the following officers were chosen:
W. B. Ogden, President; P. H. Smith, Vice-President; Geo.
L. Dundy, Superintendent; Geo. P. Lee, Treasurer; James R. Young Secretary

Donlar, Superintendent, Geo. P. Lee, Treasurer, Janes Goong Secretary
Henry H. Boody was appointed agent of the com-

pany in the City of New-York.

At an election held to-day the following gentlemen were elected Directors of the Hudson River Railroad Company for 1861 and 1862: Samuel Sloan, James Boorman, John David W. oife, Edward Jones, Wm. Kelly, D. Thomas Vail, Erastus Cerning, Wm. H. Hays, Robert P. Getty, Henry A. Smythe, J. B. Johnston, E. H. Miller, Moses H. Grinnell. Subsequently, Samuel Sloan was unanimously reelected President, and D. Thomas Vail, Vice-President. The business of the Clearing-House to-day was

\$18,412,000. The Medina Bank of this State was thrown out to-

day. It has recently changed owners, and not for the better. The circulation is about \$100,000, secured by \$21,000 bonds and mortgages, and the balance New-York State stocks.

Business in the street is very inscrive. The amount

the street was so stagnant.

The Treasury Department has just issued a circular explanatory of an act of March, 1851, relating to the appraisement of imported merchandise, and of the tariff act of March last. Two periods of time are therein indicated as dates, at which values are to be sacer-tained. It is the opinion of the Department that the former of these periods, namely, the date of actua shipment applies to merchandise exported from a ship ping port of the country of exportation, and that the latter, namely, the date of exportation, applies to merchandise exported from an interior country having no shipping ports. The regulations heretofore establis e are therefore modified accordingly.

The Bank statement of averages is satisfactory, although it does not indicate the actual strength of these institutions. The specie line shows a nominal decrease of \$665,000 under the payments into the Sub-Treasury and drain to the West, but the actual amount to-day is some three millions greater than on last Monday, and is daily increasing. The decrease in loans is threequarters of a million, notwiths anding the movements in Government loans, showing that a considerable portion of the maturing mercantile paper must have been promptly paid. The violent perturbation in Deposits was unexpected, and does not harmonize with the rest

No changes of importance have taken place in commercial and financial circles for the week now closing. Politically, a movement on the part of the old defaunt United States (for some time expected) has taken place. Our port is now essentially block aded—no ingress or genes without permission of the authorities of the old defaunt. One steamer and a tender holds the trade of the Missispip valley under surrelllance.

The Exchange market during the week has fluctuated in some respects. Good and fair sight drafts on New York have ranged from 24-634 discount down to 4-65-47 cent discount. To-day a further advance was realized two banks selling what little thay had to draw for at part o i discount, the market clusting at part o i premium. Outside there were sales at 2-624 discount. But this exchange business must be brought to a close—blocked hefore many days. There cannot be any more food formished to our enemies, as it were. True, parties desting to remit to New-York can purchase sterling from our banks and transmit it to New-York, as our banks have good balances in Loudon to draw for, and they are as good as good can be. The bank rate for sixty days on Loudon in 10-3-105, outside 100-410 down to 9-45-95. Nothing doing in france—5.50-25.45 on Paris direct for A 1, running down to 5.10-25.00.

COMMITTEE ON NATIONAL AFFAIRS.-At the meeting of this committee, Mr. Froment, chairman, yesterday, Col. McCunn and Col. Kerrigan set forth the destitute condition of their men in regard to articles of clothing—some being shoeless, others having no hats, and being otherwise destitute. They had previously applied to the Union Defence Committee, but to no effect. The opinion was expressed that it was a burning shame for the State to accept regiments and then leave the men in such a wretched condition. An application, endorsed by Howland & Aspinwall, Goodbue & Co., and other merchants, was presented for \$5,000, to furnish the necessary apparatus for practice with casemate guns in reference to preparations for harbor defences. Laid over. The committee is overrun with applications for relief from various regiments. The next meeting takes place on Thursday at 3 p. m.

VIOLATING THE SUNDAY LIQUOR LAW .- George A. the corner of Jay and Greenwich streets, was arrested on Sunday afternoon, charged with violating the Sunday Liquor law. He had a band of music in his garden, by means of which he assembled a crowd, and disturbed the peace of the neighbors, some of whom complained of him. Twenty-one of his patrons were also arrested, and with Rutzer were accommodated with quarters at the Fifth Ward Station-House for the night. On Monday morning the whole party were taken before Justice Osborne, who held Rutzer to bail, and discharged the others with a caution for the

future. SUPPOSED SUICIDE OF A YOUNG WOMAN .- Shortly after 12 o'clock, on Sunday night, the watchman aboard the steamship Philadelphia, lying at the foot of Morton street, N. R., heard a splash in the water, and looking out, saw a woman in the dock. He procured assistance and eventually succeeded in rescuing her, but not till life was extinct. She made no attempt whatever to help herself when a rope and then a chain were thrown out for her to grasp. Deceased was a young woman about 20 years of age, and had dark hair. She was dressed in a black velvet waist, calico skirt, shoes and white stockings. A pawn ticket was found in her pockets, but nothing was discovered by which she could be identified. The Ninth Ward Police seem to think deceased was intoxicated at the time of the occurrence. The remains were conveyed to the Station-House and the coroner notified to hold an inquest.

CHANGE IN THE STATIONS OF THE REVENUE CUT-TERS.—On Tuesday the cutter Jackson takes the place of the Bibb, at Throgg's Neck, while the Bibb will relieve the Vixen, at the Kills, the Vixen being ordered to the Coast Survey. LORD JOHN RUSSELL ON THE REBELLION.

MEETING OF LOYAL AMERICANS IN PARIS.

Speeches by Messrs. Dayton, Clay, Fremont, &c.

HALIFAX, Monday, June 10, 1861. The Royal Mail steamship Arabia, from Liverpool at 2:30 p. m. of Saturday, June 1, via Queenstown morning of 2d, arrived at this port at 2 p. m. to-day. Her news is three days later than that received per

teamship Fulton at New-York.

The steamship Hammotia from New-York, arrived at Cowes on the evening of the 30th, and proceeded for Hamburg.

The steamship Bohemian sailed from Liverpool on Thursday, and Londonderry on Friday, for Quebec. She took out the announcement that the Ministry in the British Parliament had been successful in carrying the repeal of the paper duties in the House of Commons by 15 majority, most of the Irish members voting with the Opposition. Also, that nothing had been done toward the renewal of the Galway steamship contract.

GREAT BRITAIN.

GREAT BRITAIN.

In the House of Commons, on the 3cth of May,
Lord John Russell intimated that an Englishman had
been forced into the militia service at New-Orleans,
but that the British Consul there had obtained his re-

been forced into the minist service active but that the British Consul there had obtained his release. Other similar circumstances of jupressment, he said, had occurred in the Southern States, but they appeared to have been unauthorized, and assurances had been received from the Montgomery Government that they would not sanction such acts.

During his speech he also deprecated the exultation with which Sir John Ramsden had alluded to the bursting of the bubble of Democracy in America. In common with the great bulk of his countrymen, he (Russell) was deeply pained at the civil war which had broken out in the United States, and which sross from the accursed poison of Slavery, left them by England, and which had clung around them like a poisoned garment from the first hour of their independence.

The London Times, on the American blockade and England's position, urges that now while it is yet time the European Governments should come to a general understanding on the subject, and adopt a public law.

FRANCE.

The American citizens in Paris favorable to the Union br akfasted together in the Hotel Du Louvre on the 24th. About 150 attended, one-third being ladies, including the wife of Gen. Scott.

Mr. Cowden presided. A resolution was adopted, pledging the meeting to maintain the Union under any circumstances.

roumstances.
Mr. Dayton said that since his arrival in Paris, he ould detect no unfriendly feeling on the part of France to the United States, and certainly no French citizen would be found among the privateers. He expressed the conviction that the rebellion would be put

down.

Cassius M. Clay spoke at some length. He was energetic on the coeduct of Enguand and the recognition of Southern beiligerent rights. He declared that if

of Southern beligerent rights. He declared that it ever the flag of England became associated with the black flag of the South, the Star-Spangled banner of the United States and the tri-color of France would be seen against her, for France had not forgotten St. Helena.

Anson Burlingame spoke on the same subject.
Col. Fremont was next called on, and was received with enthusiasm. He made quite a moderate speech. He regretted this fanatical rebellion, but felt confident that it would end in the triumph of Truth and Justice. He had been called back to America, and lost no time in responding, and he was ready to give his best serresponding, and he was ready to give his best ser-rices to his country.

The Rev. Dr. McClintock followed. He said he did

not attach any importance to the mutterings of the English press, or of the Secretary of War. The people of England had not yet spoken, and when they did their voice would not be found on the side of piracy

and Slavery.

Capt. Simmons of the United States Army announced that he was on his way home at the summons of Gen.

Mr. Halderman, Minister to Sweden, and the Rev.

Mr. Thayer, also spoke.

All the speakers evinced not the slightest doubt of the final triumph of the North.

A treaty of commerce between France and Belgium had been officially promulgated.

A decree had been issued opening all the French sca-ports for imports of cotton varn of certain numbers.

The Bourse on the 31st of May closed heavy at 69f.

SPAIN. THE ANNEXATION OF SAN DOMINGO.

ing document, presented to the Queen of Spain by Marshal O'Donnell in the name of the Council of Ministers, relating to the reincorporation of the Dominican

isters, relating to the reincorporation of the Dominican territory with the Spanish monarchy:

Madam: A happy event, eminently glorious for Spain, and of rare occurrence in the history of nations, has just taken place in one of the oid possessions of the monarchy. A Spanish island, the first of which the great Columbus took possession—an island which was the object of the especial predilection of that great Queen who, in a manner, divined the existence of a new world—has just invoked, in the plenitude of its independence, the name of Spain, and has laid at the foot of the throne that same sovereignty which your independence, the name of Spain, and has laid at the foot of the throne that same sovereignty which your Majesty deigned to recognize in it some years ago. In those days of public calamity the Dominican people implored the assistance of Spain. Descendants of that heroic nation, animated with the same spirit, speaking the same language, holding the same faith, this people has always loved Spain, from whom alone it could hope to secure that peace and prosperity which some of her children had sought, but in vain, from an imaginary and factitious independence. Spain, on her side, could not look with indifference on the fate of the Dominican neople. She sympathized with their sufferings, and people. She sympathized with their sufferings, and would fain have relieved them; but it was her bounden duty to give no ground for unjust and angry accusations. Spain is great, and has no need to extend her frontiers Spain is great, and the need to account it is not occupy a distinguished rank among the first nations of the world. But if such were her desire, she would never have recourse to means which morality and sound policy equally condemn, because there is nothing durable but what is based on right and justice. The sound policy equally condemn, because there is nothing durable but what is based on right and justice. The proclamation of your Majesty throughout the Dominican territory has proved the spontaneousness and unanimity which attend the expression of the national will. It has not caused a single tear or a moment's uneasiness, but was everywh: e hailed with unfeigued joy and enthusiasm. Already the Spanish flag was flying under that sky to which the immortal Columbus had borne it, with the Gospel in his hand; and where he planted that civilization, the most glorious of all then known. It was the duty of the sea and land forces of Spain to defend and protect the independence of the Dominican people and insure the integrity of its territory. These troops did not take possession of the territory in the name of your Majesty. Such an act, performed without the assent of your Government, would have tarnished the reputation enjoyed by that army for discipline, courage, and loyalty. To reject the prayer of an unhappy people, to expose it as a prey to a foreign ambitious, to turn a deaf car to the cry for union uttered by a whole nation which has ever loved Spain, would be adjuring the glorious traditions of our history, eign ambitious, to turn a deaf ear to the cry for union uttered by a whole nation which has ever loved Spain, would be adjuring the glorious traditions of our history, would be, in fact, an act of treason to our chivalrous and loyal character. No, Madam, it is impossible to reject the prayer of a whole nation imploring admission to the bosom of its mother country, from which it has been so long severed. Whatever the duties which the reincorporation of St. Domingo with Spain may impose on the monarchy, on your Majesty, and you Government, all Spain will not fail to fulfil them. Happily, there is no necessity for any change in the social state. The inhabitants are free. Slavery, the inevitable evil of the other colonies, is altogether unnecessary for the cultivation of that fertile territory, and your Majesty's Government can never think of reestablishing it there. The Dominicans, obedient to the voice of authority, will joyfully accept the administrative organization which your Majesty's Government shall think proper to establish among them. All will equally enjoy to beneficent prote tion of your Majesty. Reserve the beneficent prote tion of your Majesty. Prove the beneficent protein prove the y

your Majesty's approbation the following draught of a

decree:

Considering the reasons which have been laid before me by my Council of Ministers, and cordially acceding to the wishes of the Dominican people, from whom I have received so many proofs of atachment and loyalty. I decree as follows:

Art. I The territory constituting the Dominican Republic is reincorporated with the monarchy.

Art. 2. The Cap ain General, Governor of the Island of Cuba.

Art. 3. The cap ain General, Governor of the Island of Cuba.

Label the necessary measures for the execution of this decree.

Art. 3. My Government will give an account to the Cortee of the present decree and of the nessures adopted for its execution. Given at Aranjues, this 19th day of May, 1861.
